---

## EDUCATION

---

**Georgia Southern University**

**Expected: December 2025**

*B.S. Computer Science*

*Statesboro, GA*

- **GPA: 3.4/4.0**
- **Relevant Coursework:** Data Structures, Data and Algorithm Analysis, Operating Systems, Computer Security
- Active Member of Theta Xi Fraternity

## WORK EXPERIENCE

---

**Sports Media Inc.**

**May 2025 – Present**

*Software Engineering Intern – SaaS, SEO, AI*

*Remote*

- Collaborated on the development of scalable SaaS tools to support sports content delivery, integrating AI models to enhance user engagement and personalize fan experiences.
- Contributed to SEO optimization efforts by analyzing site performance and implementing data-driven improvements that increased page visibility and organic traffic.

**Lakepoint Sports**

**Summer 2019**

*Scoreboard Operator*

*Emerson, GA*

- Lead Managed live scoreboard operations for sporting events, ensuring accurate and timely updates of scores and game statistics.
- Demonstrated technical proficiency with scoreboard systems and equipment, quickly troubleshooting and resolving operational issues.

## SOFTWARE PROJECTS

---

**NoteStream**

Full-Stack Web Application | Java, Spring Boot, HTML/CSS/JavaScript

- Built a flashcard and quiz web app with RESTful APIs supporting full CRUD operations.
- Implemented user authentication with role-based access control for secure access.
- Used in-memory data structures and validation mechanisms to ensure data integrity.
- Integrated logging/debugging tools to enhance reliability and performance.

**Library Management System**

Full-Stack Web Application | Django, React, MySQL

- Designed and implemented a normalized (3NF) relational database to manage books, members, and loans.
- Built RESTful APIs using Django REST Framework for efficient backend communication.
- Developed advanced features like loan-based book popularity tracking using aggregate queries.
- Created a responsive React frontend with real-time CRUD operations for improved usability.

## SKILLS & INTERESTS

---

- **Technologies:** Git; GitHub; MySQL; PostgreSQL
- **Languages & Frameworks:** Java; Python; HTML; CSS; React; Spring Boot; Django
- **Interests:** Camping; Traveling; Fishing; AI Tools; Golf
